

Amendment-1: Clarification to Questions from Bidders

Date of issuance of amendment 1- 25 January 2010

	Question	Clarification
1	How many UN personnel are expected to be at each of the individual sites as stated in Part 3 - Concept of Operations, Section 2.	Kabul HQ plus Kabul regional office – 100 Regional offices – approximate 8 international staff members per region outside of Kabul
2	Please advise what accommodation is provided at each of the individual sites as stated in Part 3 - Concept of Operations, Section 2, including costs to the contractor.	Each contractor is required to conduct their own research into what accommodation is available at each location. However, we will endeavour to ensure that medics are accommodated together with UNDP staff, at their own costs, as far as is possible, as this is to our advantage.
3	We are aware that UNDP released a similar tender for medical support services in May 2009. Please confirm if UNDP will have any surplus medical equipment or supplies from this project to minimize unnecessary expenditure on additional items.	The tender released in 2009 was for the current medical contract which expires soon and needs to be renewed. UNDP will carry over no, repeat no, surplus medical equipment or supplies from the current project, each bidder should calculate their bids accordingly.
