SECTION 3 – TERMS OF REFERENCE

1. Background:

Capacity of sub-national governance and development institutions is the key to peace, stability and development in Afghanistan. The London and Kabul Conferences in 2010 confirmed this by identifying strengthening institutional capacities and arrangements for sub-national governance and development as priority issues. At the same time, there are many challenges in developing capacities at the sub national level, since legislative mechanisms and associated bodies are non-existent or are in their early stages of development. Organizational structures, functions and capacities of sub-national governance and development institutions are weak and do not reach out sufficiently to the people who are in need of these services.

To address the capacity gaps at the sub national level, the first phase of the Afghanistan Sub-national Governance Programme (ASGP) commenced in 2006. The primary objective of ASGP I was to work with the Afghan Government to build institutional structures and capacities required for effective service delivery at sub-national level. It initiated the sub-national governance reform process at national level, as well as provincial, district and municipal levels. In 2010 ASGP made a transition to the second phase which will run to 2014. In the second phase ASGP is significantly scaling up existing programmes in policy development and implementation, capacity development and coordination.

The key objective of ASGP is to strengthen the democratic state and government institutions to govern and ensure quality public service delivery and oversight and management of development at the sub-national level through advocacy, policy advice and capacity development.

To better understand the complexities and the constraints facing sub-national governance in Afghanistan, there is a pressing need for empirical research in this area. Like many other fields, few research studies have been conducted on the state of sub-national governance in Afghanistan. Few policies, if any, have been so far prompted by empirical research findings.

In view of recent political developments, and with the commencement of the Security Transition process in Afghanistan, where local authorities and sub-national government entities are expected to play the primary role in managing security and development, ASGP deems it necessary to strategically assess and identify those aspects of governance at the sub-national level that have worked as well as those aspects that have emerged as new constraints to good governance flourishing in Afghanistan.

For the purpose of building the foundation of a policy debate to arrive at an assessment of the changes over time, ASGP seeks the expert services of a leading research center/ think tank to produce an assessment report, based on empirical research, on governance strategies that have worked well at the sub-national level in strengthening good governance and promoting economic development. In addition the study should shed light on the governance aspects that had a less positive effect on good governance and development.

2. Objectives of the Assignment:

- 2.1 The overall goal of the Assessment Report on the State of Sub-national Governance in Afghanistan is to identify strong and weak aspects of sub-national governance institutions in promoting good governance and economic development;
- 2.2 The Report should aim to shift the current policy debate regarding sub-national governance in Afghanistan on to more solid ground by providing an in depth analysis of the issues involved supported by empirical evidence. The Report's recommendations will be used to stimulate a policy

debate among the national and international actors and their program counterparts, guided by the assessment of change overtime. As such, the Report will provide the basis for future planning by UNDP and other stakeholders in areas related to sub-national governance.

3. Scope of the Assignment:

- 3.1 The Report will analyze the role of Provincial Governor's Office (PGO), District Governor's Office (DGO), Provincial Councils (PCs), and Municipalities in providing good governance and stimulating economic development;
- 3.2 The Report will analyze the role of local informal institutions (such as Shuras), CSOs, NGOs, INGOs, UN, PRTs and Private Sector in promoting good governance and economic development;
- 3.3 The Report will analyze the current Financial/budgetary System and investment climate at the Provincial Level and its impacts on overall service delivery and economic development;
- 3.4 The Report will analyze the current Government Social Protection, Pro-poor and Gender Equality Policies at the sub-national level;
- 3.5 The Report will provide robust and realistic policy recommendations;

4 Methodology

- 4.1 For the purpose of this report, the contractor will use both primary and secondary sources for data collection;
- 4.2 The contractor will conduct a thorough literature review of relevant national and international sources on state of Sub-national Governance in Afghanistan;
- 4.3 Primary data collection will follow a sample based data collection methodology through structured questionnaire based interviews and focus group discussions with key stakeholders;
- 4.4 The questions for the questionnaire will be designed by the contractor and approved by the UNDP/ASGP before undertaking the survey;
- 4.5 Data collection, analysis, recommendations and the overall development of the Report will be done by a team of international and national experts of the contracting agency;
- 4.6 Primary and secondary data needs to be collected from all regions of Afghanistan;
- 4.7 After completion of first draft of each chapter by the contractor, the findings of the chapter will be shared with the relevant stakeholders for their feedback. The UNDP/ASGP will arrange for these review meetings at the completion of each chapter; the contractor will present the findings to the team;
- 4.8 Once the recommendations from UNDP/ASGP are incorporated, each chapter will be sent for peer-review to well-known International Experts on the subject matter by the contractor;
- 4.9 The final draft of the report and its findings will be presented to all the reverent stakeholders at a conference organized in Kabul city. The UNDP/ASGP will make all the required arrangements.

5 Deliverables:

The deliverable of the assignment will be:

- 5.1 An assessment report on State of Sub-national Governance in Afghanistan that encompasses all the aspects mentioned at the Scope of Assignment section of this ToR;
- 5.2 Presentation of the Technical Findings of the Report by a well-known International Expert to a conference made up of national and international stakeholders;

13.6 These obligations and restrictions of confidentiality shall be effective during the term of the Contract, including any extension thereof, and, unless otherwise provided in the Contract, shall remain effective following any termination of the Contract.

14.0 FORCE MAJEURE; OTHER CHANGES IN CONDITIONS

14.1 In the event of and as soon as possible after the occurrence of any cause constituting force majeure, the Contractor shall give notice and full particulars in writing to the UNDP, of such occurrence or change if the Contractor is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under this Contract. The Contractor shall also notify the UNDP of any other changes in conditions or the occurrence of any event that interferes or threatens to interfere with its performance of this Contract. On receipt of the notice required under this Article, the UNDP shall take such action as, in its sole discretion; it considers to be appropriate or necessary in the circumstances, including the granting to the Contractor of a reasonable extension of time in which to perform its obligations under this Contract.
